TECHNICAL SKILLS

- **Languages:** Python, C++, Java, C, JavaScript (ES6+), TypeScript, SQL, Bash, HTML, CSS
- **Backend and APIs:** FastAPI, Node.js, Express.js, REST API design, microservices, NATS messaging, Python/Qt desktop
- **Frontend and Data:** React, Vite, Tailwind CSS, PostgreSQL, Supabase, MySQL, MongoDB
- **Testing, CI and Infrastructure:** Jest, Playwright, Vitest, unit and integration testing, GitHub Actions, Docker, AWS, IBM Cloud, Render, Git, Linux, Grafana
- **Foundations:** Data structures and algorithms, object-oriented design, system design, distributed systems, Agile, Scrum

EXPERIENCE

IT Security Programmer (Enterprise IT, ITS)

Dec 2025 - Present

UC San Diego | San Diego, CA

- Ran an authorized penetration test on an internal LLM platform under defined scope, reporting 6 configuration and access control findings, 3 of them since fixed.
- Tested an AI assistant's Microsoft 365 email plugin integration under authorized scope and reported 17 findings under responsible disclosure guidelines.

Software Engineering Intern

Jun 2026 - Sep 2026

Lumulus Technologies | San Diego, CA

- Replaced a legacy internal tool and a paid third-party subscription with a Python/Qt Windows application for configuring USB-connected hardware devices, cutting a 15 to 20 minute task to under 5 minutes.
- Owned it end to end as the sole engineer: validated read/write and data-integrity logic against published industry specifications, then shipped with tests, documentation, CI/CD, and a self-updating installer that replaced manual downloads.

Web Development Intern

Jun 2025 - Oct 2025

NutrifitWorld | Dallas, TX

- Rebuilt the client's business platform on GoHighLevel with custom JavaScript and CSS, cutting manual operations 40% and raising client engagement 25%.
- Lifted lead conversion by 20% by replacing ad hoc reporting with analytics dashboards and automated reporting pipelines.

PROJECTS

WatchTower (Production Observability Platform)

May 2026

Tech: JavaScript, Node.js, Supabase, PostgreSQL, Clerk, Jest, Playwright, Render

- Led 11 engineers to best team and project in UCSD's software engineering course as Scrum Master and backend tech lead, shipping all 9 MVP features across 5 weekly sprints to a live deployment.
- Built the backend and CI pipeline: migrated SQLite to PostgreSQL on Supabase with Clerk authentication wired in, and gated merges behind 8 checks from lint and dependency audit through end-to-end tests at 80% line coverage.

TravelAGNTCY (Multi-Agent Travel Planner)

Jan 2026

Tech: Python, FastAPI, LangGraph, React, TypeScript, Docker, NATS, Grafana

- Won SANDHacks 2026 with a distributed planner where a LangGraph supervisor coordinates agents across 6+ Dockerized microservices on NATS, served over FastAPI to a React and TypeScript front end.
- Reduced inter-service latency 40% and made agent-level failures traceable with structured logging and Grafana dashboards.

Synthetic-to-Real Object Detection (Kaggle Competition)

Apr 2025

Tech: Python, PyTorch, YOLOv8, Albumentations, OpenCV, NumPy

- Achieved a public mAP of 0.9175 on the Kaggle competition leaderboard by training a YOLOv8 detector entirely on synthetic imagery to generalize to real photographs.
- Improved real-world generalization by 22% through domain adaptation and augmentation with Mosaic, MixUp and color transforms.

EDUCATION

Bachelor of Science in Computer Science

Anticipated Jun 2027

UC San Diego | San Diego, CA

Relevant Coursework: Advanced Data Structures, Software Engineering, Network Security, Cryptography

Associate of Science in Computer Science

Aug 2023 - May 2025

Irvine Valley College | Irvine, CA

TRAINING AND LEADERSHIP

- **Training:** AWS Cloud Practitioner Essentials (2026); IBM SkillsBuild (2025): Code Generation and Optimization Using IBM Granite, Data Classification and Summarization, Cybersecurity Fundamentals
- **Founder and President, AI Club at Irvine Valley College** (2024-2025): Founded the college's first AI club and grew it to 150+ members, ran 5+ technical workshops averaging 30 attendees, and secured \$2,000 in sponsorships.
